- \* 3-Years Insurance (Theft only)
- \* 4 GB USB Flash Drive
- \* Security Locking Device
- \* USB Optical Mouse
- \* Colour change to Brass
- \* Colour change to Red

#### Please Note:

All systems described above fulfil the hardware specification required to enable pupils to connect to the School's network and Internet.

#### Which System Should You Choose?

Choices should be made based upon personal preferences and budget:

- The Vostro 3350 is a powerful machine that offers excellent value for money and is the most portable.
- The Vostro 3550 has a larger screen.
- The Vostro 3750 is our top of the range model with the largest screen and dedicated graphics card.

#### Three Years Warranty and Accidental Damage Cover

Please note that the Accidental Damage Cover is a return to base service and any machines needing a repair will be collected, repaired and returned to school. The three year warranty cover is an on-site service.

## Optional Extras

### 3-Years Insurance (Theft only)

This policy will insure the machine whilst at school, at home and abroad. This policy does not cover machines that are left unattended in a public place. We believe that this insurance offers excellent value for money and will give parents total peace of mind. You can insure the system for £105.00. **Please contact EAC for full terms and conditions.**

### 4 GB USB Flash Drive

This is a device that is small enough to be carried around on a key ring. When plugged into the USB port of a laptop computer or other PC, it appears in Windows Explorer as an additional data drive. This allows for very fast back-ups of data or for copying files between one computer and another in an easy and transportable manner. A 4 GB flash drive is £22.50 (inc VAT).

### Security Locking Device

This device comprises a steel cable that can be locked into the chassis of the laptop computer and then attached to something solid/immovable at the other end. This provides the ability to secure the laptop to an item of furniture, such as a desk, to help prevent opportunist theft. The device can be bought for £35.00 (inc VAT).

### USB Optical Mouse

All the laptops come with a touch pad as standard however many people prefer to use an external mouse. The optical mouse uses infra-red not the standard roller ball technology. A USB Optical Mouse is £15.00 (inc VAT).

## Delivery

Deliveries can be arranged to the pupils UK based home or alternatively deliveries can be made to the school's IT Support Department. Pupils will sign an 'Acceptance Form' that accepts responsibility for the delivered goods.

## Payment

All order forms should be sent to EAC. Please send a cheque with the order form or provide credit card details. If payment is to be made by bank transfer or with a cheque from an overseas account or by Credit Card, there will be a small additional charge of £20.00 to cover the increased transaction costs. Orders cannot be fulfilled unless payment has been received.

## Further Information

If you wish to discuss any of the systems or options prior to making a decision, or would prefer to order online, then please telephone EAC on 01844 215050, during normal office hours, and let them know that you are a parent of a pupil at Millfield School. They will be happy to discuss matters with you in detail.

# MILLFIELD Parents Summer 2011 ORDER FORM

1. If you would like to order a system together with any of the optional extras, then please complete the contact information details below (please use BLOCK CAPITALS) **(Orders received by 31st July will be fulfilled prior to the September Term.
