King Edwards
School, Bath.

3 Year Project to Completely overhaul the ICT Infrastructure and Network Servers

EAC Network Solutions were asked by the school to investigate the existing systems and understand the school's aspirations, then produce a plan to overhaul the school ICT systems to help them reach their goal, to be a flagship school for ICT in the whole of the South West. Over the last 3 years EAC Network Solutions have provided the school with amongst other things: Completely new structured cabling and fibre optics throughout, New network switches, Migration to Server 2003 and Windows XP Desktop, Wireless Network, High Speed Internet Connection through our partner Easynet, Complete Internet Security suite (Anti-Virus, Web filtering, Anti-Spam, Firewall), Corporate imaging solution, Corporate mail system (Exchange), Interactive Whiteboards installed in every classroom, and a state of the art Server Room.

“EAC Network Solutions understood our needs perfectly and produced a plan to help us achieve them quickly, they have revolutionised the ICT at this school.”

Mr M. Horrocks-Taylor (Deputy Head Teacher),
King Edwards School
