SOLUTIONS**
Education & Commercial

Lord Wandsworth College

EAC Network solutions procured the desired laptops for Lord Wandsworth College. Prior to shipment each one was tested, all the extended warranties were logged on behalf of the school and all the serial numbers and network card MAC addresses were recorded and supplied to the school in a detailed asset register. The machines were then delivered to the school in accordance with the school's schedule so we did not clutter the ICT Department with all the machines at once.

“EAC Network Solutions were not only the most competitive on their price, but they also offered and delivered more additional services, their after sales support is second to none.”

Miranda Tinley (ICT Technician),
Lord Wandsworth College
