St. Martins CofE Infant School, Surrey

EAC Network Solutions entered into a partnership with St Martins CofE Infant School to provide a package of ICT Support tailored to meet the individual needs of the school. These services include, onsite ICT Technician days, ICT Consultancy time to liaise with the Schools management team and curriculum ICT Coordinator, Preferred rates for any projects or additional ad-hoc support, and a dedicated Account Manager. A trained ICT Technician attends St Martins CofE Infant School's site for a minimum of one, three hour session per week. The technician uses the time to perform all the duties a permanently employed school technician would do, but the school could never justify employing.

On-site School ICT Technician

“EAC Network Solutions have been absolutely fantastic, they simply come in and get everything to work without any fuss.”

Mrs L. Hutchings (Head Teacher),
St. Martins CofE Infant School
