

**NETWORK  
SOLUTIONS**  
Education & Commercial

St. Pauls  
School

St. Pauls School have an ongoing program of installing and upgrading their Promethean Interactive Whiteboards. EAC Network Solutions supply and install the boards, projectors, and all fittings. At EAC Network Solutions we treat every Interactive Whiteboard installation as an individual project, every room is surveyed prior to quoting as every room is different and there may be different and better ways of “finishing” each installation. It is this professional and considered approach to each installation that enables us to complete each job on-time and with the highest possible quality of finish.

*“Originally EAC Network Solutions were awarded the contract on price alone, however they have earned the right to retain the contract based on the quality of the work that they do for us on every installation. Outstanding!”*

**Mr A. Reid** (Director of ICT),  
St. Pauls School

## Installation of Promethean Interactive Whiteboard Suites

The Old Dairy, Park Grange Farm,  
Thame Park Road, Thame, Oxon OX9 3PW
