

Special Bundle Offer: Mobile ICT Classroom
Meru Wireless Network & Acer Aspire One Netbooks

Until recently wireless networks in education have had their problems, and it has not been possible to truly unleash the potential of WiFi to utilise laptops in a whole class, classroom environment.

With Meru Networks, this is now solved, and to celebrate EAC Network Solutions have negotiated and bundled a limited number of Mobile ICT Classroom Solutions.

Each bundle contains:

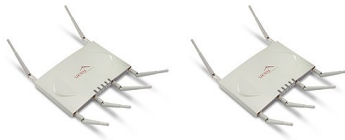

- 1 Meru 1500 Series Wireless Controller
- 2 Meru 311 Dual Radio 802.11abgn Access Points (typical coverage, 4 classrooms)
- 30 Acer Aspire One 10' Netbooks with 802.11bgn wireless cards
- 1, 30 bay secure netbook trolley, with charging functionality
- Full Installation and configuration of the wireless network, including 2 CAT5e network points*, PoE injectors, and configuration of the netbooks to work on the wireless network.

Limited Offer Bundle Price: £9995 + VAT (Save over £1500)

Acer Aspire One 532 in Red, Blue or White

Big things do come in small packages! The 10.1" Aspire One 532h features the next-generation processor for netbooks, built-in Wi-Fi®, optional 3G, a high-def display and more -- all packed in a petit form that's less than one-inch thin and weighs about 1 kg. What's more, up to 8 hours of battery life gives you all the power you need to stay connected, so you can get the most out of life while you're on the move.

If you would like to see a demonstration of the Meru Wireless Network prior to ordering, please feel free to contact Either Emma or Sarah using any of the details below, who will be happy to make the arrangements for you.

*subject to full site survey.
